MONITOR WHAT MATTERS

8000S Series

Reusable Pulse Oximetry Soft Sensors

8000SL Large

Digit thickness:
8000SL 12.5mm-25.5mm
(0.5"-1")

8000SM Medium

Digit thickness:
8000SM 10mm-19mm
(0.4"-0.75")

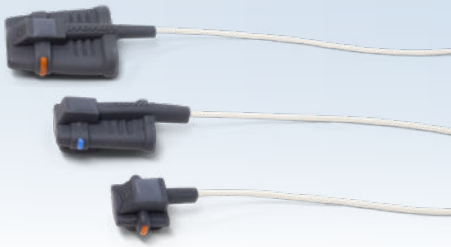
8000SS Small

Digit thickness:
8000SS 7.5mm-12.5mm
(0.3"-0.5")

Nonin 8000S Series reusable soft sensors offer ultimate flexibility for SpO_2 measurement, whether short-term spot checking or continuous monitoring. The specifically designed soft sensors offer superior patient comfort by providing an optimal distribution of pressure and three sizes to fit a variety of patient hands from children to adults. Nonin's PureLight® sensor technology and PureSAT® signal processing are designed to support accurate performance across a range of patients and conditions.[1,2,3]

NONIN

Choose Nonin.
Choose Quality.



- Sensors remain comfortable for spot checks or long-term monitoring.
- Durable sillicone construction—not made with natural rubber latex.
- Suitable for settings where SpO_2 monitoring is required.
- Cleaning the sensor between uses is quick and simple.
- Near-instant measurements ensure readings from the moment the sensor is placed.
- Uses intelligent pulse by pulse filtering to provide accurate SpO_2 measurements, even with low perfusion[2] or in motion.[3]

For Patients of Many Sizes and Clinical Presentations

Three sizes fit most patients for these digit thicknesses:

8000SS 7.5mm-12.5mm (0.3"-0.5")
8000SM 10mm-19mm (0.4"-0.75")
8000SL 12.5mm-25.5mm (0.5"-1")

The 8000S series of reusable sensors are ideal for spot checks, short-term monitoring, or continuous monitoring with cable lengths ranging from 1m, 3m, 6m, and 9m.

Unique Sensor Line—The $WristOx_2$ sensors are exclusively designed for use with the $WristOx_2$ Model 3150.

8000S-WO2 Reusable Sensor

WristOx₂ Model 3150 with Soft Sensor
