TruO2® Model 3245

Wireless Fingertip Pulse Oximeter with Bluetooth® Low Energy

Fast Readings

High Performance

Bluetooth Connectivity

The TruO2® Fingertip Pulse Oximeter is made with the same medical-grade pulse oximetry technology used in professional Nonin pulse oximeters for patients, clinicians, and the military. Bluetooth wireless connectivity allows caregivers to monitor patient information remotely, and make care decisions based on accurate and reliable patient measurements.¹

TruO2 is a Health and Wellness Device—No Prescription Required

Accuracy. Connectivity. And Proven Performance.¹

Provides quick, high-quality SpO₂ and pulse rate readings from small to large digits

Save SpO₂ history using a compatible Apple device and share spot check readings with the Apple Health App

Nonin PureSAT® technology captures SpO₂ and pulse rate measurements quickly and consistently

Pairs with NoninConnect App, allowing users to send SpO₂ history by email using a compatible Apple device

Nonin CorrectCheck™ technology provides feedback via digital display if the finger is not placed correctly in device

Nonin SmartPoint™ capture algorithm determines when a high-quality measurement is ready to be wirelessly transmitted

Health App Compatible

TruO2® Model 3245
Fingertip

Wireless connectivity allows viewing of SpO₂ and pulse rate from up to 10m (32ft) away on iOS® devices

Power turns on when applied and off when removed

Provides up to 2,200 spot checks on two AAA batteries¹

Rugged, reliable design and construction backed by a 2-year warranty

Bright LED display

Automatic On/Off
